#### Location

Ses Salines is a municipality in the southeast of Mallorca and is known for the dream beach "Es Trenc", which is only about 4 km away and therefore easily accessible in 5 minutes. The name of the municipality is derived from the large salt pans that are still used for salt production today.

The entire eastern part of the island is particularly well-known for its beautiful beaches and bathing bays with well-tended sandy beaches. These have been awarded the European Blue Flag for good bathing water.

The beautiful natural beaches with crystal-clear water in the south-east of the island are just as easy to reach.

It is approx. 50 km from the airport to Ses Salines and only 30 to 35 minutes' drive due to the highway that has been in place since 2020 up to Campos and the very well-developed roads.

The clearly structured village is historically one of the wealthiest communities on the island and therefore also has beautiful buildings, the restoration of which often reveals true treasures, including natural stone walls, round arches or wonderfully cool inner courtyards, which often offer space for a pool. It consists mainly of typical Mallorcan townhouses or villas with corresponding plots of land. Most of the houses have small, usually refreshingly cool patios or even small gardens. The houses are mostly lived in all year round, but are also used as vacation homes. This makes the municipality a pleasant place to stay at any time of year and always lively without being overrun by tourists.

In Ses Salines, which is open all year round, you will find various restaurants and bars as well as all everyday necessities, supermarkets, banks, hairdressers, cosmetics, a green market, massages and a post office, all within easy walking distance.

The weekly market in Ses Salines rounds off the offer.

Large supermarket chains are located in the neighboring village of Campos or Santany.
