Objektbeschreibung

Unique natural stone finca in Campos awaits your completion.

The with about 14,500 m² particularly large plot has a valid construction project until 2025 for a 270 m² finca on 2 floors.

Completion is possible within a few months, so you can already move in here for the next bathing season.

The existing construction planning includes a top class finca in the sought after area of the beach "Es Trenc", which has progressed to the interior and has been planned as follows:

Through the terrace you enter the entrance area. A spacious living room with dining area, 3 bedrooms each with bathroom en suite and the large terrace offer plenty of living space on this floor. The open kitchen of the dream finca provides a sociable communication with family and friends.

In the basement there are 2 bedrooms with bathroom en suite and dressing room, as well as another living area, which are all connected with the terrace to the garden.

In addition, there are 2 other rooms. Whether an indoor pool, gym or a hobby room, your imagination will be the limit here.

This is exactly where our construction professionals come into their own. We plan your living dreams down to the smallest detail and orient ourselves on the old building fabric and your imagination. And if you have wishes, but not yet a concrete idea, then let yourself be inspired by a visit to one of our living dreams.

The property has its own cistern.

The property is characterized by its quiet and spectacular views and is located just a few minutes drive from the local hustle and bustle of Campos.

This dream finca is only sold together with another plot with the reference 1592-23ES.

When will you visit your new dream home?

With this offer you should not hesitate for long.

Features

Energy certificates are also mandatory for real estate in Spain, but are often not issued until shortly before the sale due to their validity. The value stated in the exposé is therefore given at the lowest level if it is not available and can improve significantly after preparation.

Vacation properties are an attractive investment.

If you want to invest your money with a good return and in a safe form, then a property is recommended as an investment.

Different factors are primarily decisive for a vacation property:

- Accessibility
- location
- Structural developments
- Value increase forecast

These ultimately determine the purchase price and thus your subsequent profitability. Real estate prices on the central Mediterranean island of Mallorca continue to rise and are highly attractive.

Daily and often multiple flight connections from various airports in Germany and Austria are also available in the winter season at reasonable prices and make the vacation island with its mild Mediterranean climate especially interesting for commuters.

Nevertheless, the right region is crucial for a high return on investment.

The southeast of the island is the region of Santanyi is hardly affordable, on the other hand, the region around Felanitz and Cas Concos is quickly accessible due to the new highway connection since 2021. Around 20-30 minutes drive from the airport, the region is highly interesting for investors and capital investors from all over Europe due to its currently favorable real estate prices.

Location

Campos is a lively small town on the south-east coast of Mallorca with high value growth, not far from the town of Santanyi, Ses Salines and Colonia de Sant Jordi.

The latter is famous for the dream beach "Es Trenc" and is only about 10 km away and can be reached comfortably in about 15 minutes.

The entire eastern part of the island is particularly known for its beautiful beaches and coves with well-kept sandy beaches. These are awarded with the European Blue Flag for good bathing water.

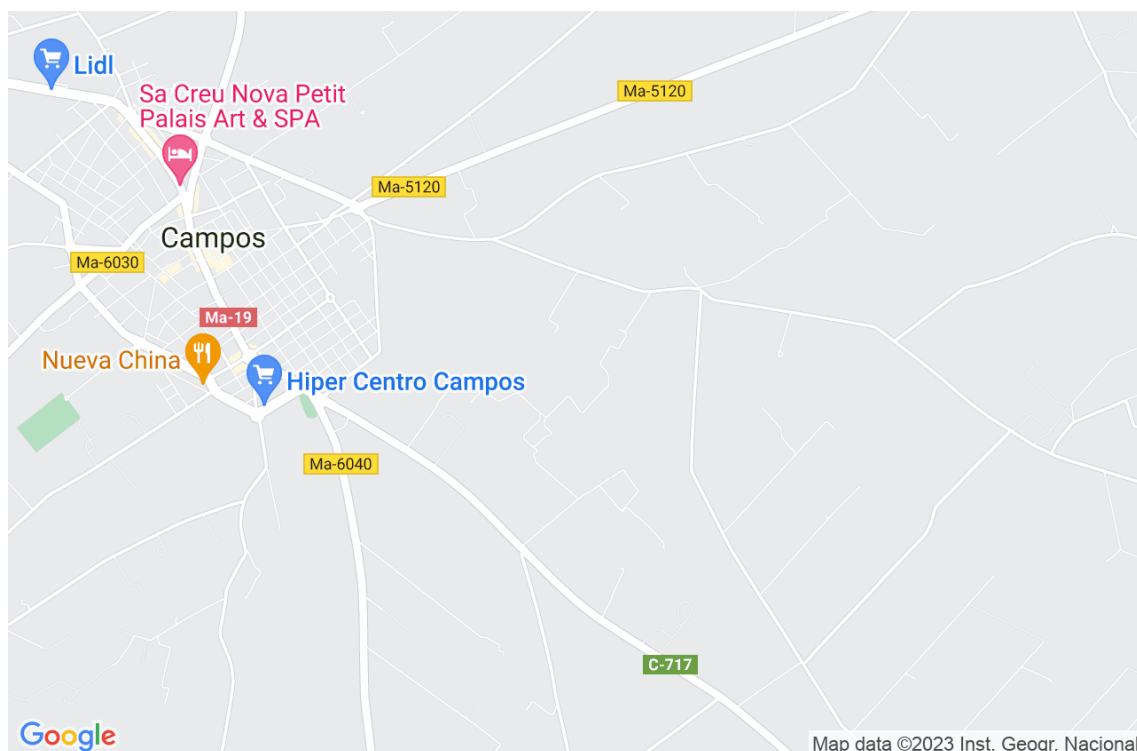

From the airport to Campos it is about 40 km and due to the freeway existing since 2020 to Campos and the then very well developed roads only 30 to 35 minutes driving time.

The municipality belongs historically to the wealthy communities of the island and therefore also has beautiful buildings, whose restoration often brings true treasures to light, including natural stone walls, round arches or dreamlike cool courtyards, which not infrequently offer space for a pool.

The clearly structured town consists mainly of typical Mallorcan townhouses or villas with corresponding plots of land. Most of the houses have small, mostly refreshingly cool inner courtyards (patio), or even small gardens. The houses are mostly inhabited year-round, but are also used as vacation homes. This makes the municipality a pleasant place to stay at any time of the year and always lively, but without being overrun with tourists.

In Campos you will find all year round open beside various restaurants and bars all things of the daily need, supermarkets, banks, hairdressers, cosmetics, laundry, massages and post office.

Only a few meters to the next small supermarket, the large supermarket chains on the outskirts are about 5 minutes. All things of daily need are therefore well within walking distance.
