Objektbeschreibung

This sunny dream plot with 1.071 m² is characterized by its quiet location and spectacular views and is located only a few minutes away from the lively local hustle and bustle in Ses Salines and offers enough space to make your life dreams come true.

The plot is particularly interesting for capital investors and investors, as it can be divided into four new plots, giving you the possibility to build four two-story houses.

All desirable utilities, such as electricity and water, are available in the street and the connection is accordingly problem-free. In the course of 2023, all pipes, water pipes and sidewalks will be completely renewed.

Self-sufficiency through the construction of a well and the use of solar technology is also common in the country. All options for closing the gap in the building are open and we will be happy to advise you in this regard.

Numerous localities are within walking distance in less than 5min, like a numerous choice of restaurants, supermarkets, pharmacies and several bus stops. The center of Ses Salines is only 500m walking distance.

Enjoy the sunrises and sunsets as well as the fantastic views from your future terrace.

Our construction professionals will be happy to advise you and work at fixed prices.

So-called "townhouses" offer decisive advantages:

- Central location and "living in a community
- Restaurants and cafés within walking distance
- Connection to utilities (water, electricity, sewage, Internet)
- Protection against burglary due to central location
- Low maintenance compared to a finca with land plot

Features

Energy certificates are also mandatory for real estate in Spain, but are often not issued until shortly before the sale due to their validity. The value stated in the exposé is therefore given at the lowest level if it is not available and can improve significantly after preparation.

Vacation properties are an attractive investment.

If you want to invest your money with a good return and in a safe form, then a property is recommended as an investment.

Different factors are primarily decisive for a vacation property:

- Accessibility
- location
- Structural developments

- Value increase prognosis

These ultimately determine the purchase price and thus your subsequent profitability.

Real estate prices on the central Mediterranean island of Mallorca continue to rise and are highly attractive.

Daily and often multiple flight connections from various airports in Germany and Austria are also available in the winter season at reasonable prices and make the vacation island with its mild Mediterranean climate especially interesting for commuters.

Nevertheless, the right region is crucial for a high return on investment.

Location

Ses Salines is a municipality in the southeast of Mallorca and is known for the dream beach "Es Trenc", this is only about 4 km away and thus easily accessible in 5 minutes. The name of the municipality is derived from the large salt mines that are still used for salt production.

The entire eastern part of the island is especially known for its beautiful beaches and bathing bays with well-kept sandy beaches. These are awarded with the European Blue Flag for good bathing water. The beautiful natural beaches with crystal clear water in the southeast of the island are also easily accessible.

From the airport to Ses Salines it is about 50 km and due to the freeway existing since 2020 to Campos and the then very well developed roads only 30 to 35 minutes driving time.

The clearly structured village belongs historically to the wealthy communities of the island and therefore also has beautiful buildings, whose restoration often brings true treasures to light, including natural stone walls, round arches or dreamlike cool courtyards, which not infrequently offer space for a pool. It consists mainly of typical Mallorcan townhouses or villas with corresponding plots. Most of the houses have small, mostly refreshingly cool inner courtyards (patio), or even small gardens. The houses are mostly inhabited year-round, but are also used as vacation homes. This makes the municipality a pleasant place to stay at any time of the year and always lively, but without being overrun with tourists.

In Ses Salines you will find all year round open beside various restaurants and bars all things of the daily need, supermarkets, banks, hairdressers, cosmetics, green market, massages and post office, all are well within walking distance.

The weekly market in Ses Salines completes the offer.

Large supermarket chains are located in the neighboring village of Campos or Santany.
